### MEDICAL LABORATORY TECHNOLOGY CONCENTRATION

PROGRAM COLLABORATION WITH  
CAMDEN COUNTY COLLEGE

Students who are pursuing this Allied Health program collaboration will be enrolled in the appropriate Health Science A.S. Concentration while they accumulate the required credits to apply to transfer to the target transfer institution. **Students are strongly encouraged to consult Camden County College during their first semester at SCC. Procedures for application to the Medical Laboratory Technology program at Camden (including deadlines) may change from year to year. It is the student's responsibility to obtain the current requirements for admission to the Medical Laboratory Technology program at Camden. Enrollment in SCC's Health Science program does not guarantee acceptance into the Medical Laboratory Technology program at Camden.**

Medical laboratory technicians work in the clinical laboratories of hospitals, clinics and other healthcare facilities, performing a wide range of analytical and diagnostic tests to search for the presence, absence, extent and causes of disease. Physicians use their findings for diagnosis, prognosis and treatment of patients and their illnesses.
